iRamp

Portable full surface ramps for heavy loads.

IRAMP PORTABLE

IRAMP CARBON

iRamp Portable is a ramp which folds lengthways. It provides a full surface required for electric wheelchairs and three-wheeled scooters. It is very lightweight, made from a durable material and is capable of supporting heavy loads. The iRamps are only 5.5 cm thick when folded up.

The iRamp Carbon series is even lighter, 30% lighter than the competitors' counterparts. As the name suggest these ramps are manufactured from carbon fibre, a material that is extremely light, rigid and strong.
